

The Center of Excellence on Mood Disorders and the Department of Psychiatry and Behavioral Sciences, in partnership with UT Physicians presents

FOCUS ON FAMILIES: BEHAVIORAL HEALTH IN CHILDREN & ADOLESCENTS

Parents and caretakers, educators, counselors and the general public are invited to join us for this free event, as we share the vision of World Bipolar Day: to bring greater awareness to mental health, share knowledge, eliminate social stigma and build sensitivity for those with emotional and behavioral issues.

The panel discussion and Q & A will bring fresh insight on behavioral health issues:

- Coping with sadness, social anxiety and school attendance
- Early signs for identification in children and adolescents
- ADHD or bipolar disorder: sorting out the symptoms
- After diagnosis: Planning for education, family life and the future
- Personalizing treatment to meet each child's needs with success
- The latest research and how it can help with patient care

Our panel offers expertise from a range of backgrounds and viewpoints:

Jair C. Soares, M.D., Ph.D.
Chairman, Department of Psychiatry, McGovern Medical School at UTHealth
Director, Center of Excellence on Mood Disorders

Iram Kazimi, M.D.
Psychiatrist, Department of Psychiatry, McGovern Medical School at UTHealth

Cristian Zeni, M.D., Ph.D.
Psychiatrist, Department of Psychiatry, McGovern Medical School at UTHealth

Pat Sumner,
Parent of a son that lives with Bipolar and President of NAMI Fort Bend

Moderated by: Sudhakar Selvaraj, MBBS, DPhil (Ph.D., Oxon)
Psychiatrist, Department of Psychiatry, McGovern Medical School at UTHealth
